Quality pre-k programs not only level the educational playing field, but also prepare students to enter kindergarten ready to learn. This session explores early brain development and its connection to future workforce development.

One of the primary responsibilities of every school district is to ensure a safe and secure campus for students, staff, and visitors. This session will investigate how to evaluate current risks and address the challenges of securing schools.

Making Father and Family Engagement Relevant to STUDENT Outcomes

It is always nice to have fathers volunteer in schools but what is your district doing for MOST of the dads? Many dads cannot volunteer a day of their time and kids need dads to be involved in their education on a daily basis.
